Rica in their boundary dispute, it does not 'feel compelled to suggest' that Costs Rica delay longer in taking jurisdiction over territory now held by Panama and which was adjudged to belong to Costs Rica by the terms of the White award.

The position of the sovernment was stated in a note transmitted by Secretary Hughes to the government of Panama on August 15, and made public today by the state department. Costs Rica has advised the United States, the note said, of its determination to assume immediate furisdiction over the disputed territory.

Almost simultaneously with publication of the note it became known by the core of martines had been embarked at Philadelphia for the canal aone. Officials here whose positions made them cognizant of the movement refused to divulge its purpose or to comment except for the statement that it was priered at the soliciation of the state department.

"After the most careful consideramo of the attements contained in
a note of the government of Panma above referred to, this governent has reached the conclusion that
guments advanced in this comunication have already been fully
savered in previous notes. It is
easily regretted that it has proved
anama and Costa Rica to come to
trect agreement for the delimitation
that portion of the boundary beween the two republics Isid down
by the White award. In view of the
first that the government of Panama
pnears unwilling to carry out this
elimitation in the manner provided
the Porras-Anderson convention,
and inasmuch as a reasonable time,
mentioned in the note of this government dated May 2, 1921, for the
eaching of an agreement as to the
nanner of carrying out this delimitaion, has already been afforded, there
rould seem to be no reason why the
overnment of the United States
should, as the friendly mediator heween the two governments or by
iriue of its special relations to the
tovernment of Panama, feel com-

of Costa Rica that it delay longer taking jurisdiction over the territory which now is occupied by Panamand which was adjudged to belong to Costa Rica by the terms of the Loubet award.

"The government of the United States is now advised by the government of Costa Rica that since it considers that the Porras-Anderson convention is in force and since it believes that there is no valid reason for delaying its complete execution any longer, it is ready to assume immediately the jurisdiction over the territory above referred to."

accepted by the shipping board, it was anneunced officially tonight.

A contract for sale between the corporation and the shipping board has been drawn up under direction of Commissioner Edward C. Plummer and will be approved by the board Tuesday providing the purchaser completes the required bond. Under its terms the board will receive 15 per cent of the total sale price of \$430,000 in cash and a prorate portion of the balance upon delivery of each vessel.

Mr. Plummer said tonight the board had devoted a great deal of time to the atudy of the bids in view of "the terribly low prices which were offered," but considered that best thing under the circumstances would be to accept the offered price for part of the fleet. The vessels cost the board from \$300,000 to \$800,000 each, as to the vessels retained Commissioner Plummer explained, the shipping board was considering the possibility of their utilization as pontoons for the bridge across the Hudson river at New York city.
